Reasons for Allowance

4. The following is an Examiner's statement of reasons for allowance:
The applicant has claimed a method for producing a soluble protein domain (see for example claim 1). Applicant's amendment filed December 27, 2004 along with the filing of a Declaration under 37 C.F.R. 1.131 were sufficient to bring the application in condition for

allowance. On its face it appeared that the abstract disclosed by applicant was a 102 reference, however, it was noted that the end of the grace period fell on a weekend giving applicant the next business day to file the application. Therefore, the abstract of the annual meeting held in Japan is not prior art. In addition, a search of commercial databases did not produce any prior art that suggests or teaches the claimed method. Thus, the claimed invention is novel and nonobvious over the prior art of record.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
